

I find it hard to believe that I'm paying good money so I have the choice of what to listen to and this is now in jeopardy. I subscribe to XM Radio so I don't have to listen to commercials anymore. I couldn't take another one hour commute with 5 songs and 35 minutes of commercials, blather from radio personalities and contests. I want to hear music, I want to hear updates for weather and traffic, and I want to have the choice to decide to listen to what I want when I want it. My radio antennae was torn off my car by some pranksters and I've never replaced it in this last year because XM provides my service perfectly. If you take this service away, I'll be back to wading through a quagmire of commercialism to get what I need again. More likely, I'll leave the radio off or listen to a cd and just sit in traffic ignorantly because I won't listen to the local stations and all the garbage that crams their airwaves.

It's my right to pay to listen to the stations I choose just like it's my right to pay for the channels I want on cable or satellite tv. Stop this censoring and pandering to deep pockets and dirty money.
